

## Letter of Recommendation

This letter of recommendation for Erickson Karyadi and his business, Airport Jakarta, is for any person or company coming to and or based around Jakarta.

I've used Eric's services on numerous occasions for both business and personal support for the past nine months. I can state without the slightest bit of exaggeration that Eric is one of the most trustworthy, dedicated, diligent and honest people I have had the good fortune to work with.

As Regional President of a large international communications consulting firm, I have numerous client and company executives coming in and out of Jakarta. I use Eric's services exclusively for airport transportation, VIP immigration service and meeting support in Jakarta. When I line up Eric to do a job for an important client I know I don't have to worry about anything. And I have received more unsolicited compliments from my colleagues on Eric and his company than you could possibly expect from jaded, well-traveled executives. He really makes the last leg of a long, tiring journey easy and pleasant.

Also, for me as a newcomer to Jakarta, Eric has also become a trusted and valued friend who I count up for a wide range of support services. Any time I've called on Eric he's been there. It's an understatement to say he's made my move here so much easier (and enjoyable).

I can recommend him to you without hesitation or reservation.

Jake Drake

President, Asia-Pacific
